

Mongold IRTC

Purpose

- **Mongold IRTC is a stewardship sale or integrated resource timber contract (IRTC) that sold in 2014. The IRTC contract was chosen for the following reasons:**
- **To retain receipts on the district to fund restoration projects around Detroit Lake.**
- **To allow the purchaser to tell us how to remove timber in a complicated setting.**
- **To improve stand health in a high use recreation area and along the Hwy 22 corridor.**

Retained Receipts

- Mongold IRTC was sold with an estimated 5650 tons of merchantable sawtimber.
- Receipts processed as of March 30th 2015 show that 5,277 tons have been removed. This is 93.4% of the total estimated tons.
- The receipts for the 5,277 tons translates to \$86,746.53
- The remaining receipts might increase this number to around \$90,000.
- Keep in mind that there are variables such as overrun, underrun and the quality of timber yet to be processed that could influence the overall total.

Spending Retained Receipts
